

MA Members:

At the BOD's request, I am furnishing a brief report on the status of the Community Center renovation project (this is a synopsis of reports to the BOD from Norm Ricker - Owner's Rep)

1. interior demolition work is generally complete
2. popcorn coated wallboard in Library, Billiard Room and Office has been removed
3. new Library work room has been framed
4. leveling floor surface applied and walls framed for handicap accessible restrooms (Main Hall)
5. Paoli Room floor raised and concrete floor in place
6. new ramp from Lobby to Main Hall framed
7. concrete pad at Main level Lobby entrance removed and ready for new concrete
8. exterior wall surfaces on 2 story portion being packed out with rigid insulation in prep for new siding
9. many new windows stored on site awaiting installation

Additional, periodic reports will be forthcoming.

Ed McFalls

Attached for your information are a number of pictures as follows:

stone raised floor in Paoli Room

removal of concrete by Main Level entrance
